At Verde Hotels, Thrivability is our core to a wider brand strategy and we are passionate and committed to our journey towards developing, operating and managing sustainable hotels.

“Thrivability incorporates all that is implied with sustainability but expands beyond its limitations”. (Madigan and Delaney)
It encompasses three core values that are assimilated with the triple bottom line: people, profit and planet. According to Jean Russell (2013) “...the language of sustainability is about neutralizing...Thrivability is about succeeding”

Hotel Verde Cape Town Airport opened in 2013 as Africa’s Greenest Hotel, and with no sustainability measures spared from development to operations. This 4 star property’s location, unique setting in a restored wetland, facilities and services has made it a favourite amongst airport hotels locally and internationally. With its successes in hospitality and sustainability awards and certifications, Verde Hotels—Thrivable Hospitality Solutions were born.

The beautiful Hotel Verde Zanzibar—Azam Luxury Resort and Spa opened its doors in 2018 and is located a mere 10 minutes from the historical Stone Town. The property offers a sustainable 5 star luxury experience and exclusive features enjoyable for a variety of travel purposes.
